

My family and I enjoy listening to KLOVE radio. It and Air one are the only alternatives to secular music and vitally important to our listening pleasure. Without this Christian radio, my teenagers and myself would be influenced negatively by secular music, lyrics which are not of God and do not provide a wholesome or family balance. Whether or not anyone is Christian, KLOVE radio is a positive alternative to the trash that is on every other station and completely inappropriate for children, as well as adults. It only breeds more trash.
